We Love Nature

We will Creative Business Model Based on Customer First Principle

We will create various added value by optimizing the allocation of capital in our business activities by optimizing the allocation of capital in our business activities.

Input Management capital Management capital (Source of competitive advantage)

Financial capital (assets etc.)

• Financial management integrated with business model

Manufacturing capital (buildings, facilities, etc.)

- · Fabless management to collaborate with manufacturing consigned companies
- · Resource saving · Energy saving production (NS system etc.)
- · Production logistics 5 block system
- · Sales bases deployed nationwide

Intellectual capital (know-how / branding power)

- · Five product development concepts
- · High patenting ability
- · Branding power
- \cdot Optimum raw material cultivation suitable for various products
- Traceabilit
- · Quality control system to manufacturing consigned companies
- · Manufacturing technology strength through cooperation with
- outsourcing parties and material manufacturers
- · In-house feedback mechanism of market information (Internal Proposal Voice System)

Human capital (employee education and health promotion etc.)

- · Route sales
- · Tea professional collective tea taster
- · Human resources system with real ability
- · Penetration of consciousness of "customer first principle"

Social capital (public facilities as the foundation of industry and daily life)

- · Material procurement power with scale advantage
- · Cooperation with stakeholders · Network

Natural capital (biological, mineral, fossil fuel)

- · Quality improvement of tea leaves
- · Production of raw materials Stable procurement

Business model based on customer first principle

ITO EN's unique competitive advantage Unique business model Regional contact route sales Value chain to create innovation and new markets Customer first High share Collaboration principle with stakeholders and low cost Profitability Creating shared value /Efficiency Promotion of CSR / ESG Driving force to strengthen management capabilities Corporate Governance is the foundation. Ø **** CO

Output (Added value to be created)

Financial capital

- · Improve profitability · capital efficiency
- · Improvement of EPS
- · Stable shareholder returns

Manufacturing capital · Flexible production according to demand

- Development of optimal manufacturing process and containers suitable for various products
- · Commodity supply to all over the country by community-based sales

Intellectual capital

- · Product development according to various needs
- Optimal sales proposal based on various products and market trends
- \cdot Use of optimal raw materials according to various products
- Due to transparency of production area and thorough quality control · Reliability Brand value improvement
- · Improvement of technical capabilities of manufacturing consigned companies
- Contribution to anti-counterfeiting measures

Human capital

- · Human resource development
- Create a comfortable workplace

Social capital· Expansion of consumption of domestic raw materials and activation of green tea market

- Consumer safety · Security
- · Provide health value to a wide range of customers
- · Inheritance of popularization of Japanese tradition · tea culture

Natural capital

- · Regional activation of tea production area
- Increase food self-sufficiency rate, measures against abandoned land for cultivation
- · Promotion of environment conservation type agriculture
- · Energy conservation / resource saving · prevention of global warming in business activities
- · Tea shell recycling system

Creating Demands for Tea Leaf Products

Various Ways to Use Tea Leaves and Our Products

Introducing recipes which use Tea Leaves and Used-Tea-Leaves

Introducing ways of enjoying Instant Tea Products
"NINJA ICE"

Shelf and Product Reform

Topics

■ Received the Grand Prize and Economy, Trade and Industry Minister's Award in the "5th Platinum Vision Award*1"

In recognition of the

"Tea-producing region development project (New Tea Farms Business,)" as a solution through business based on analysis of issues in Japanese agriculture

*1 Initiatives by local governments and enterprises to solve issues in society and the community through the creation of new industries through innovation and measures filled with ideas are honored in the form of awards, to introduce and propagate them as models for the future and problem-solving initiatives to be taken by developed countries.

■ Received the "Director-General Award from the Maritime Bureau, Ministry of Land, Infrastructure, Transport and Tourism" as an excellent business operator in the Eco-Ship Modal Shift Project*2

In recognition of the significant reduction of CO2 emissions achieved by partially switching long-distance truck transportation to maritime transportation

*2 An initiative aimed at promoting the modal shift towards using maritime transportation, by selecting cargo owners and logistics operators, who contribute to this modal shift, granting them permission to use the Eco-Ship Mark; and bestowing an award from the Director-General of the Maritime Bureau to excellent business operators, who have made large contributions related to this initiative.

■ITO EN Oi Ocha New Haiku Contest certified as a "beyond2020 Program*3"

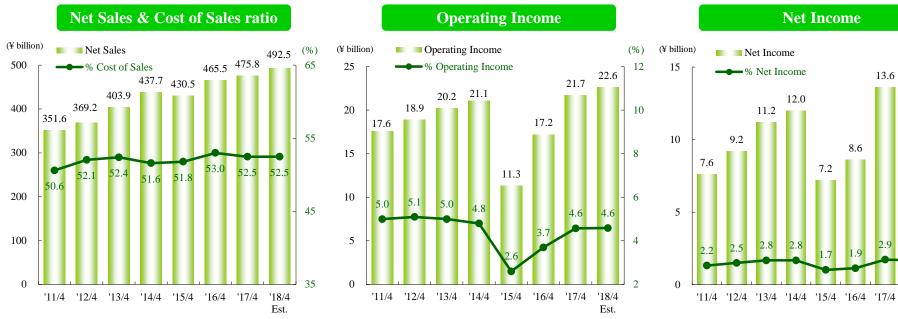

We will strive toward further communication and development of the "tea culture" along with Japanese culture.

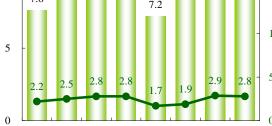

*3 A government (Cabinet Secretariat Headquarters for the Promotion of the Tokyo Olympic and Paralympic Games) initiative looking beyond 2020 for providing a sense of unity throughout all of Japan in nationwide implementation by certifying and granting a logo mark to cultural programs that contribute to the creation of a legacy, proudly shown to the next generation and suitable of a mature society, through the utilization of regionally rich and diverse culture, which is one of Japan's strengths.
