## ITO EN (non-consolidated) Main impact on sales *3Q ( Nov 2020 to Jan 2021)

Nov 2020 to Jan 2021
$-9.1 \%$
Reference: 2Q
(Aug to Oct, 2020 )
$-7.4 \%$

## Shift to telecommuting

- Decrease in visits to convenience stores particularly in urban areas
- Decline in purchase from vending machines at offices
- Increase in consumers making tea and coffee from leaves and beans at home

## Nationwide re-expansion of COVID-19 cases (serious cases)

- Voluntary restraint on year-end events, homecoming visits and New Year's events including New Year's visit to shrines
- Suspension of business of supermarkets, etc. for the first three days of the New Year
- The government declared the state of emergency(2nd time) in Tokyo and three neighboring prefectures on January 7, 2021
*Coverage areas were expanded to 11 prefectures on January 13

| ( Jul to Sep, 2020 ) |$\quad=1 \%$

o Sales are on a recovery trend, reflecting the slowdown in the spread of COVID-19.

## March 15, 2021

Japan's first food with function claims that reduces body fat in people with high body mass index*

## "Premium Oi Ocha" (Japanese green tea leaf product)

*Japan' first food with function claims that reduces body fat by gallate catechins as functional ingredients in the green tea leaf product category
Three kinds of green tea leaf products of food with function claims that reduces body fat supported by gallate catechins' functions will go on sale nationwide on March 15. They will contribute to the health of customers by adding new value to green tea leaf products, which are growing on the back of a recent increase in "at-home demand".

## Features

-Functional ingredients: Gallate catechins

- Procurement of raw materials and a quality control system able to solidly secure functional ingredients
*ITO EN handles about 25\% of the crude tea production volume in Japan.

Content of gallate catechins, functional ingredients of food with function claims: 340 mg (after extraction)
Notification labeling] This product contains gallate catechins. Gallate catechins are reported to have a function of reducing the body fat of people Wih diagnosis, tretmen

## Reference: Status of research and development

ITO EN has been working on extensive research and development on tea to open up its possibilities for about half a century. ITO EN will continue to create and provide health value in response to changes in lifestyles in collaboration with various stakeholders.

Three key themes

- Healthy
o Delicious
o Environment

Status of research and development of five main beverage manufacturers

- Total number of FOSHU-certified products and food with function claims*

ITOEN No. 1
(Total 85 cases)
Of which, a total of $\mathbf{3 3}$ products contain tea catechins as functional ingredients.

As of February 16, 2021 / Source: The Consumer Affairs Agency FOSHU-certified products: Number of licenses / Food with function claims: Number of items issued

- Number of tea-related patents owned*
